

Edible Ecosystems Emerging: Food Forestry for the 21st Century

A 9-Day Forest Garden Design Intensive with Dave Jacke, Juliette Olshock, Seth Nyer, and Jon Darby

October 13 – 22, 2017

Heritage Creek Farm Camp, Mount Joy, Pennsylvania, USA
Sponsored by Horn Farm Center for Agricultural Education

Dive into the vision, theory, and practice of designing wholesome, dynamic, and resilient edible ecosystems.

- Learn a variety of ecological design processes.
- Understand forest architecture, social structure, and successional processes.
- Design urban or suburban homesteads, farm-scale, or an edible stream corridor.
- Engage with issues of garden management, economics, and deep paradigm shifts.
 - Enjoy “hands-on, hearts-in, and minds-together” experiential learning.
 - Leave inspired and empowered to design your own food forests.
